Sıradışı görünümüyle henüz tasarım aşamasındayken dahi Londra'daki ilk sunumda büyük beğeni toplayan PERSPECTIVE serisi, alışlagelmiş kare ve üçgen formların dışında sahip olduğu geometrik şekliyle ve Porland'ın özel reçetesi olan Aluminalı porselenin kremi beyaz rengiyle sofralara yeni bir perspektif kazandırmıştır.

Thanks to its unordinary appearance, Perspective collection was highly acclaimed in its first presentation in London even in designing stage. The collection has brought a new perspective to the tables with its geometrical shape outside the usual square and triangular forms and the creamy white color of aluminated porcelain which is the special recipe of Porland.

The image features three white ceramic plates of varying sizes, overlapping each other. They are set against a solid, vibrant green background. The plates are arranged in a diagonal pattern from the top-left towards the bottom-right. The lighting is soft, highlighting the glossy texture of the plates and creating subtle shadows between them.

A stack of several white plates is shown from a top-down perspective, slightly offset to create a sense of depth. The plates are clean and minimalist. The background on the left side is a textured, light-colored surface, possibly concrete or stone, which contrasts with the smooth, white ceramic of the plates.

The background is a dense, marbled pattern. It features irregular, organic shapes in shades of off-white, light beige, and pale grey, interspersed with darker, more saturated tones of brown, tan, and muted blue-grey. The overall effect is reminiscent of natural stone or aged parchment with organic staining.

A high-magnification scanning electron micrograph (SEM) showing a dense field of dark, irregularly shaped magnetite particles. The particles vary in size and morphology, with some appearing as small, rounded grains and others as larger, more elongated or angular structures. The background is a lighter, granular matrix. The word "Magnetite" is overlaid in the center in a white, serif font.
